

MAGHRENOV Call: Brokerage Event February 10, 2016

In the framework of the MAGHRENOV project, KIC InnoEnergy SE supporting EU contributors and IRESEN, supporting Moroccan contributors, launched a joint call for Innovation projects on Renewable Energies and Energy Efficiency, targeting Euro-Moroccan consortia. To contribute to consolidation of these consortia and provide all necessary information on the call, IRESEN and KIC InnoEnergy organize a half-day brokerage event.

Objective of the brokerage event

During half a day, we make sure that you have all keys to understand the call, meet interesting people to build international consortia between European and Moroccan companies and research groups, and start writing an innovation project proposal with the best complementary partners from both parties.

Targets

Outcomes: establishment of “innovation projects” for the development of innovative products and services in the field of Renewable Energy, Energy Efficiency (RE&EE) & Biomass.

Entities: Industrial companies, research centres, universities
